“Achievement, ambition and progress for all....”

News from across our community

Philosophy Sessions

We were very pleased to welcome back our Philosophy Teacher this week, to undertake a piece of research with the Year 5 team. He held a session with class 5O about exploring and understanding affective skills in philosophy. The sessions will form a piece of research on the impact of philosophy on learning.

After School Clubs

It was also great to see some children participating in our after school clubs in KS2. It has certainly felt like another small step back to normality. Rounders went down a storm, as did Netball, the children were running about so much they all came out with red faces! But all with a smile. Hockey was also a great success and cricket with the YR6 children was thoroughly enjoyed.

We will hopefully be able to offer out these clubs again next half term.

Safeguarding

Last week, we shared with you a TikTok poster outlining advice on how to ensure your child stays safe whilst online.

This week, the infographics are in relation to another video sharing platform popular with young children, 'YouTube'. Please be aware that 'YouTube Kids' is for children who are four years and older.

May I wish you a restful weekend and a happy Bank Holiday Monday.

Regards

Jacqui Noakes

headteacher@johnball.lewisham.sch.uk

Parent Tip: Myths and Facts snippet

The most precious present of all.... Time

Did you know? 19% of children said they never spend any fun time with their parents. 92% of children want to spend more time with their parents.

Friday 23rd	Last day of term – early finish – (time to be confirmed from 1.00pm)

Letters/E-mails

Nursery – Polling Day

YOUTUBE

YouTube is a video sharing platform owned by Google.

You must be aged 13 or over to use YouTube. There is a separate service for children, YouTube Kids, for ages 4+.

01

Video Sharing

Content Creators can share videos with subscribers. To subscribe, users click the bell icon on a video or user profile. Videos can be: Public (available to all – default setting), Private (invite only, must have a YouTube account to view), Unlisted (shared by link, viewable to all).

02

Comments & Likes

Users can comment on videos, and 'like' or 'dislike' by clicking the thumb up/down icons. Users can report comments which are unpleasant or make them feel uncomfortable.

03

Private Messages

YouTube disabled the private message feature across its website on September 18th 2019.

04

Age-Inappropriate Content

YouTube has a 13+ age rating to protect children from accessing age-inappropriate content. Users can set YouTube to 'Restricted Mode' which screens out potentially harmful content, similar to parental controls. However, this does not filter all age-inappropriate material.

05

YouTube Live

These are real-time videos created by users, and often feature users talking while playing computer games (streaming). Due to the nature of a live stream, content may become inappropriate over the course of the video. Users can comment during the stream, frequently unmoderated. Games played during streams are usually age-restricted content.

06

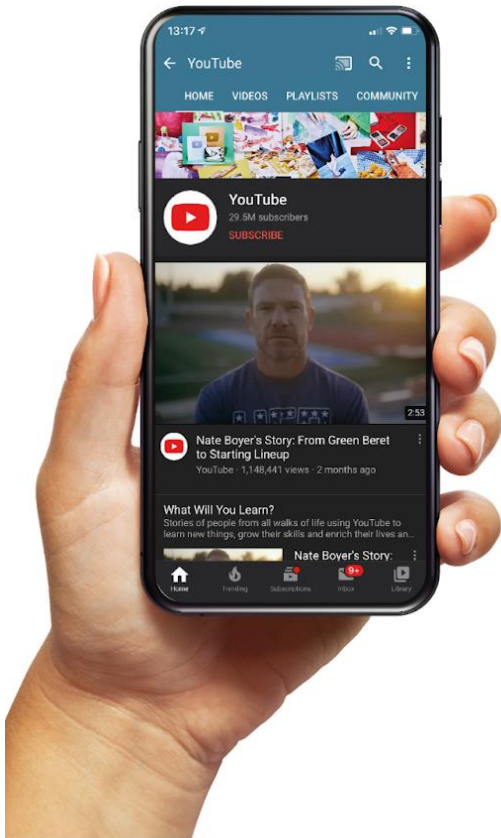

Concerns

Comments on videos can include swearing and malicious and hateful content. High prevalence of cyber-bullying. The 'Suggested Videos' feature can show users increasingly inappropriate content. Viral 'Challenge' videos can encourage children to participate in dangerous activities. High risk of seeing videos showing sexual and/or violent content, drink, drugs & crime, and suicide & self-harm.

07

YouTube Kids

YouTube Kids is a service which filters out inappropriate content. It is aimed at ages 4+. Like the main service, YouTube Kids shows adverts alongside videos. Parents have the ability to select channels, collections & videos by age ratings for their children to watch. Ability to disable the search function and activate screen time limits.

Getting Help:

If social media has left you feeling depressed and anxious, or you have experienced any form of cyberbullying, you can talk to someone at ChildLine, a free confidential 24/7 helpline for children and young people. You can call 0800 1111 or chat online at www.childline.org.uk

(ChildLine is run by the NSPCC.)

The next poster outlines privacy settings you can put in place to safeguard your children

YOUTUBE

Privacy Settings on Social Media Sites

When you sign up to YouTube, your account will remain unsearchable until you upload your first video. If you want to upload a video that is 15+ minutes long you will need to verify your YouTube account with a phone number. When uploading content on YouTube, you are able to select the intended audience for that video, i.e. for children (aged 13 or below) or people aged above the age of 13. For all new YouTube channels, the people who you subscribe to will remain unlisted.

Where to find the privacy settings?

Overall channel settings:

1. Login to your YouTube account
2. Navigate to the top of the page and click on your channel icon (on the top right side)
3. A drop-down menu should then appear - go down to the 'Settings' tab and click on it. This will redirect you to your YouTube settings page
4. On the left side click 'Privacy'; where you will be able to find your privacy settings for your YouTube channel

Video Settings:

1. Login to your YouTube account
2. Navigate to the top of the page and click on your channel icon (on the top right side)
3. Click on 'YouTube Studio'. This will redirect you to your channel dashboard
4. On your channel dashboard, click on the 'Videos' tab (on the left side of your screen)
5. In the video section, hover over the video you want to change and click on details (the pen icon)
6. Once you are in the video details options you can edit the settings for that video, including making your video public, private or unlisted

YOUTUBE KIDS

Privacy Settings on Social Media Sites

YouTube Kids is available for children under 13, providing family-friendly content using a mix of automated filters, human review and feedback from parents. Only videos listed as 'For Children' will appear on this filtered version of the main site. YouTube Kids provides tools for parents to customise their children's experience in the app, from choosing what content they can watch, to limiting screen time, to blocking videos.

There are also resources available to help develop healthy digital habits.

Parental Settings:

1. Click the padlock icon at the top right of the page
2. Answer the question to unlock
3. Use the options to age-restrict the app further, set a password and turn off the search function
4. Scroll down for privacy options

Please look on our website for adverts if you wish to view these. They will be alongside the newsletter.

This week: - Lewisham Children & Family Centres cookery zoom sessions, Story Sacks and Superkids Half-Term flyer

If you would like to advertise in JBuzz, we ask for a small donation of £10.00 for our school fund. We tend to advertise for individuals and charities/local events so please check first that it can be accepted. The ad will run for 1 week and we only run one ad half-termly.

Advert disclaimer: Please note we take advert requests from outside sources in good faith. We hold no responsibility for these and they are not necessarily recommended by John Ball School.
