For parents of direct close contacts of COVID 19 in Year 5 at John Ball School

Dear Parent,

Advice for Year 5 children to self-Isolate for 10 Days at John Ball School

We have, today, been advised that there has been a confirmed case of COVID-19 within the Year 5 bubble. The child felt unwell early on Saturday 26th June and had a PCR test, of which the result received today was positive.

We have followed the national guidance and have identified that your child in Year 5 has been in close contact with the affected case. In line with the national guidance we ask that your child now stay at home and self-isolate **until and including Monday 5th July** (10 days after last contact which was Friday 25th June) The first day back to school will be Tuesday 6th July.

We are asking you to do this to reduce the further spread of COVID 19 to others in the community.

Self-isolation means they should:

- **stay at home;**
- ask friends or family members to bring them things they need such as medication and groceries or use delivery services for shopping which must be left outside your home for you to collect;
- as much as possible, separate themselves from others with the door closed or stay at least 2 metres (6 feet) away from people in your home;
- stay away from vulnerable individuals such as the elderly and those with underlying conditions as much as possible;
- stay in a well ventilated room with a window that can be opened to keep air moving;
- sleep alone, if possible;
- clean toilet/bathrooms after their use if you share then with others (wiping surfaces they have come into contact with every time);
- wash their hands regularly for 20 seconds, each time using soap and water;
- use separate towels at all times from others in the household;
- stay in touch with others over the phone or through social media

They should **not**:

- go to school, public areas or use public transport or taxis;
- mix with other children (no play dates/ sleepovers etc.)
- go outside unless they have access to your own garden;

- invite people into their/your home;
- share towels, bedding or eating utensils and dishes, cups and glasses.

If your child is well at the end of the 10 days period of self-isolation, then they can return to usual activities.

Siblings of the Year 5 child that attend John Ball school, **can** still attend school, but Year 5 children **must not attend the school drop off or pick up**. Other members of your household can continue normal activities provided your child does not develop symptoms within the 10-day self-isolation period.

Please see the link to the PHE Staying at Home Guidance

<https://www.gov.uk/government/publications/covid-19-stay-at-home-guidance/stay-at-home-guidance-for-households-with-possible-coronavirus-covid-19-infection>

What to do if your child develops symptoms of COVID 19

If your child develops symptoms of COVID-19, they should remain at home for at least 10 days from the date when their symptoms appeared.

All other household members who remain well must stay at home and not leave the house for 10 days.

The 10-day period starts from the day when the first person in the house became ill.

Household members should not go to work, school or public areas and exercise should be taken within the home.

If you require help with buying groceries, other shopping or picking up medication, or walking a dog, you should ask friends or family. Alternatively, you can order your shopping online and medication by phone or online.

Household members staying at home for 10 days will greatly reduce the overall amount of infection the household could pass on to others in the community

If you are able, move any vulnerable individuals (such as the elderly and those with underlying health conditions) out of your home, to stay with friends or family for the duration of the home isolation period.

Symptoms of COVID 19

The most common symptoms of coronavirus (COVID-19) are recent onset of:

- new continuous cough and/or
- high temperature and/or
- a loss of, or change in, your normal sense of taste or smell (anosmia)

In addition, and to be extra safe, if your child develops the following symptoms, please contact the school.

- Loss of appetite

- Diarrhoea
- Nausea
- Vomiting
- Extreme tiredness
- Headaches
- Joint pain
- Muscle ache
- Runny nose
- Sore throat
- Sneezing

For most people, coronavirus (COVID-19) will be a mild illness.

If your child does develop symptoms, you can seek advice from NHS 111 at <https://www.nhs.uk/conditions/coronavirus-covid-19/check-if-you-have-coronavirus-symptoms/> or by phoning 111.

How to stop COVID-19 spreading

There are things you can do to help reduce the risk of you and anyone you live with getting ill with COVID-19

Do

- wash your hands with soap and water often – do this for at least 20 seconds
- use hand sanitiser gel if soap and water are not available
- wash your hands as soon as you get home
- cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze
- put used tissues in the bin immediately and wash your hands afterwards

Further information is available at

<https://www.nhs.uk/conditions/coronavirus-covid-19/>

You will receive an email from the Year 5 time in regards to online learning. This will be sent by the end of the inset day on Monday 28th June.

I understand that this maybe worrying or difficult for you and your family. Please do contact us if you require any help or support.

Yours sincerely

Jacqui Noakes
